Orchid Problem Workshop
hosted by SCOS Top Growers
Monday, May 21, 2018
(the Third Monday)
Presentation starts at 7:30 p.m.

What is going on with my orchid? Do you have an orchid that is less than the perfect specimen you hoped it would be? Want to know how to cure its ills and make it thrive again? Grab a few of those recalcitrant members of the Orchidaceae family and bring them to the SCOS meeting. Our expert growers analyze, evaluate, and prescribe cures for your problem plants.

Cultural practices, diseases, water chemistry, fertilizer, pesticides, as well as light, air movement, humidity, and the specific needs of each particular orchid can play a part in the successful cultivation of our beloved plants. This is a chance to learn from your mistakes (and we all have them). Bring an orchid, learn, and have fun improving your technique.

Refreshments

Last names starting with **I through P** please bring refreshments.

President's Message

Hello everyone I am writing this as Pat and I are still in New Orleans after attending an excellent and dry Jazzfest. Thunderstorms are very common during Jazzfest but we avoided them this year. Leaving for home today 5-8 will see how my orchids and garden fared during my absence. See everyone at the meeting.

Last but not least my Long Beach State 49'ers beat UCLA for NCAA Men's volleyball championship. Go Beach!!!
