Guest Speaker: Dr. Norito Hasegawa

Subject: AOS Judging II

Monday, July 23, 2012

Our lecture this month features the return of a familiar face to the SCOS. Dr. Norito Hasegawa will explain in further depth the workings behind AOS Judging as a follow up and companion to the opportunity we had two months ago to view AOS judging "in situ." Dr. Hasegawa's last lecture (Jan. 2011) was on Multifloral Paphiopedalum Species and their Hybrids. This time, he shares the knowledge and experience of a lifetime in the consideration of champion orchids.

Norito Hasegawa is a retired dentist, an overextended hobbyist (considered commercial for tax purposes), is a 3 million miler travelling to many foreign countries talking and/or judging in places such as Japan, South Africa, Australia, Brazil, Canada, Denmark, Germany, New Zealand, Taiwan, England, France, Switzerland and many many cities in the USA.

He is primarily a hybridizer of Slipper Orchids (Paphiopedilum) although his interests and collection of 15,000 orchids include miniature cattleyas, phalaenopsis, cymbidiums and variegated orchids of all sorts. He first became interested in orchids after seeing orchids in mass at the World Orchid Conference held in Long Beach in 1966. After he bought his first orchids, he failed miserably, but persisted in trying to grow them outdoors, and in no time he had hundreds. Now, he can't imagine his life without orchids. Orchids are an endeavor of science, taxonomy, hybridizing, art, sociability, quiet reflections, and mad parties—join the addiction and fun.

He is married to Joyce, with three children Lisa, Todd and Mark with paphiopedilums named after each of them. He is owner of Paphanatics, unLimited; a judge in both the American Orchid Society and the Cymbidium Society of America for over 35 years.

President's Message

It was another great turnout for our June meeting. All those in attendance were treated to an excellent presentation by Dr Peter Tobias on the (OCA) Orchid Conservation Alliance and their support of projects in Equador and Brazil to sustain orchids in their natural habitat. It is great to see that inroads are being made in protecting orchid habitats even as more rain forest and other orchid habitats continue to come under pressure from developers in those countries. I would like to thank Dr Peter Tobias for his talk and especially for his orchid conservation work.

SCOS recently purchased a digital projector which was used for the first time at our June program. We also have purchased a computer program which will be used to organize our annual orchid auction which takes place at our October meeting. Thanks to all our members who make it possible for us to make these upgrades.

I am looking forward to seeing everyone at our July meeting for Dr Norito Hasegawa's presentation.
