

South Coast Orchid Society
Summary of October, 1957 meeting as published in *Orchid Digest*

Many of our members attended the Second World Orchid Conference, which was held in Hawaii. For the benefit of those not attending the Conference, our program for October 28th consisted of several brief, but interesting reports, with slides and movies, on various phases of the trip. The reports were made by Mr. George D. Field, Mr. Joseph Hampton, Mr. Ernest Hetherington and Mr. Frank Manahan.

The plant forum consisted of 51 plants, which were exhibited by the members, including some excellent specimens of miniature Cymbidiums. Of the two dozen plants that were submitted for ORCHID DIGEST judging, seven received awards.

Mrs. Don L. Gilson
