We are again fortunate in having the well-known florist, Mr. Morrie Molho, as our speaker. Mr. Molho operates two floral shops, one in Costa Mesa and one in Balboa. In addition, he has numerous speaking engagements and writes a regular column in "Blooming News." He is Director of the Southern California Floral Association and Florists' Telegraph Delivery.

Please bring any extra blooms you may have available so we will have a good supply for Morrie to work with. We should get some excellent ideas after hearing and observing this famous florist and designer.

Mr. Rod McLellan was guest speaker January 27 for our Annual Banquet. His stories and slides of his recent trip to Singapore and New Guinea were highly entertaining and made our evening a complete success. Thanks again to Jerry Worthen for her outstanding table arrangements and to Art Falk for arranging for us to have our banquet at the Petroleum Club in Long Beach. The steaks were delicious!

The ORCHID DIGEST TENTH WESTERN ORCHID CONGRESS will be held March 19th through 22nd at the Huntington Sheraton Hotel in Pasadena. The theme - "Orchids On Parade." Many of the outstanding orchid growers have been invited to be guest speakers. The show will be designed by the well-known landscape architect, Mr. Victor T. Pinkney. South Coast Orchid Society will have a display in the show.

A preview dinner will be held March 19th in the Viennese Room of the Huntington Sheraton. Friday, March 20th, registrants will tour commercial greenhouses in the Los Angeles area. For further information contact Woodrow Wilson, LUcas 5-3082 or Mrs. Helen Czeikowitz, NEwmark 1-1243.

PLANT PROCUREMENT

The beautiful plants for our January banquet were furnished by Armacost & Royston. They were large flowering plants of excellent quality.

Plants for the February meeting will come from the Fred A. Stewart Co. We can expect an excellent selection.

NOVICE CLASS

60 members met for the February meeting and enjoyed the hospitality of Mr. and Mrs. Clarence Mason. Mr. Mason gave many good points on "How we are raising our plants."

Next month's meeting will be held Sunday, March 1, 1964, at the home of Mr. and Mrs. Clyde Crary, 16302 Rhone Lane, Huntington Beach. Remember to bring your plants for trade--something the other fellow would want in his greenhouse. This will not interfere with the regular Plant Forum.

For the first time in sixteen years we have produced enough stock to share with you orchid lovers.

Ten thousand seedlings available in 2½-inch pots. These are from our regular stock, valued at \$3.00 to \$5.00 each, but for our February and March Sale all plants are only 95c each. In quantities of 10 plants you can expect 20% white, 10% yellow and 70% colored. We will not ship less than 20 plants and \$1.50 shipping cost should be added for each 20 plants. California purchases add 4% sales tax.

Here are some of our crosses —

TRY STEWART'S MEDICINE!

No, we aren't selling pills. All you do is come in and look at our beautiful flowers. Or, if you live too far away to visit in person, try our long range medicine — our catalogs. Many of our long time customers tell us they feel better, and get a new outlook on life, after a visit. The same goes for our catalogs. They seem to lift people out of the "doldrums." Why not try a catalog "session?" And if you want to feel even better, try a few of those choice seedlings!

The Cymbidium flowering season is opening fast. Let this be our personal invitation to you to visit us soon. We've got the coffee steaming and are anxious to show you our new introductions.

ADVERTISING

SOUTH COAST ORCHID SOCIETY, INC.

Three BIG reasons why you should do your orchid shopping at Armacost & Royston.

1. You can buy the best possible quality plants for your money. Prices to fit any budget.
2. Centrally located. Open seven days a week to visitors. No guide necessary. Look at the plants and our complete line of orchid supplies at your leisure.
3. We have a courteous, friendly staff to assist you with your selections, as well as advise you with your cultural problems.

Come in and see us, and give your reasons why you think you shouldn't patronize Armacost & Royston. We'd like to hear them.

At Last! THE BREAKTHROUGH YOU HAVE BEEN WAITING FOR!

Agricultural Enzymes

A Vital Supplement To Increase Plant Growth

Just spray it on and watch the results you have always wanted

"WHAT ARE ENZYMES?"

Enzymes are nature's chemical tools. They act as organic catalysts that speed up chemical changes in cells without taking part in the change themselves.

These enzymes, amylase and protease, break down the complex food materials into simpler, more assimilable forms. As a result, this encourages growth of roots, foliage, and stimulates early blooms. Leaves assume a more erect stance and plants become more tolerant to light.

Orchid-zymes are compatible with other insecticides, fungicides, and fertilizers and may be applied in conjunction with these, even in a "shot gun" application. "Orchid-zymes" is **not** just another plant food, but truly a **new** and **proven** product that contributes to the growth of plants.

It is completely available to plants giving **quick** and **lasting** results.

An Important Bonus: "Orchid-zymes" will greatly reduce algae on pots, benches, compost and floors. It dissolves the unsightly white encrustations of fertilizers and chemicals that normally burn sensitive root tips.
