## PROGRAM

May 25, 1964 - 8:00 p.m.

### "BLUE ORCHIDS"

Mr. Leo Holguin, Manager of the Orchid Department at Armacost & Royston in West Los Angeles, will show colored slides and tell us of their latest advances in breeding the blue Cattleya.

Last month Mr. Ernest Hetherington from The Fred A. Stewart Co. gave us a very interesting program on the newest line of Cymbidiums at Stewart's and growing tips for Cymbidiums in Southern California.

### PLANT PROCUREMENT

Mr. Holguin will bring a selection of their fine plants from Armacost & Royston.

Last month our plants were furnished by Stewart's. On the last ticket drawn our President, Paul Brecht, was the lucky winner of a \$50 bulb from the award winning plant Cym. Coral Sea.

Other welcome donations were a wet bulb Humidiguide from Southern California Greenhouse Manufacturers, a watering wand from Rheinfrank & Hudson and some nice plants from the Murray Spencers. Thank you all very much!

### PLANT FORUM

In Chairman Paul Shaub's absence, Woodrow Wilson appointed Ernest Hetherington to discuss Cymbidiums, Frank Johnston - Botanicals, and Clarence Mason - Cattleyas. We had many beautiful plants. Remember--every plant brought for the plant forum will give you an extra ticket for the plant drawing.

### LIBRARY

If any of our members have books on orchid culture that you are no longer using and would like to donate them to our library, they will be greatly appreciated by our librarians Mr. and Mrs. Leo Bance.

### "GET WELL QUICK"

We were sorry to hear that Donna Hudson has been in the hospital. She is home now and we send our best wishes for a complete and speedy recovery.

We were glad to have Fred Vaughan back with us at the Novice meeting after his recent trips to the hospital. We're glad you're feeling better, Fred.

#### NOVICE CLASS

55 members and guests enjoyed the hospitality of Mr. and Mrs. Robert Green in Garden Grove. In the absence of our Chairman, Dr. Dodson, Fred Vaughan took over the class. Greenhouse maintenance was the topic for the day and there was a question and answer period.

The next meeting of the Novice Class will be Sunday, June 7, at the home of Frank Fordyce, 2500 Fire Mountain Drive, Carlsbad. This will be a bus trip which will leave Lakewood shopping center in back of the May Co. at 8:00 a.m. The cost will be \$3.70 a person. This money will be collected at the regular meeting May 25th. There will also be a pick up stop in Anaheim which will be announced May 25th. Those planning to go should take a box lunch for the number in your party. The bus will be back around 5:30 p.m. This trip should be lots of fun, so don't forget to sign up at the regular meeting May 25.

*At Last!* **THE BREAKTHROUGH YOU  
HAVE BEEN WAITING FOR!**  
**Agricultural Enzymes**

**A Vital Supplement To Increase Plant Growth**

**Just spray it on and watch the  
results you have always wanted**

*"WHAT ARE ENZYMES?"*

Enzymes are nature's chemical tools. They act as organic catalysts that speed up chemical changes in cells without taking part in the change themselves.

These enzymes, amylase and protease, break down the complex food materials into simpler, more assimilable forms. As a result, this encourages growth of roots, foliage, and stimulates early blooms. Leaves assume a more erect stance and plants become more tolerant to light.

Orchid-zymes are compatible with other insecticides, fungicides, and fertilizers and may be applied in conjunction with these, even in a "shot gun" application. "Orchid-zymes" is not just another plant food, but truly a new and proven product that contributes to the growth of plants.

It is completely available to plants giving quick and lasting results.

**An Important Bonus:** "Orchid-zymes" will greatly reduce algae on pots, benches, compost and floors. It dissolves the unsightly white encrustations of fertilizers and chemicals that normally burn sensitive root tips.
