PROGRAM

LUAU - AUGUST 24, 1964 - 6:00 P.M.

Get out your Hawaiian recipes, muu-muus, Hawaiian shirts and sarongs--it's Luau time! Mr. George Hudson, Luau Chairman, has arranged for Stan Kennedy of Hawaiian Airlines to fly in Tahitian dancers especially for our program. Pan-American Airlines has sent us the new film, Wings To Tahiti, and we will have prizes for the best costume worn by a man and a woman which most appropriately carries out the "island" theme. There will be other surprises too!

Our neighboring societies have been invited to attend. The Luau will be held outside the Club House on the northwest side of the building. This promises to be the biggest Luau we have ever had.

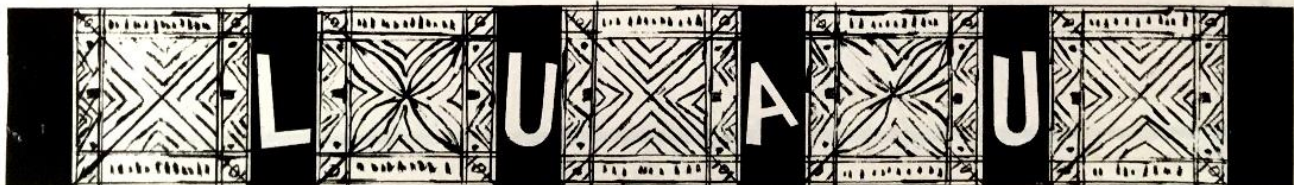

Please bring a meat dish, casserole, salad or dessert (Polynesian, Oriental, or Hawaiian in nature) to serve 12 people (not canary birds) and bring your own table service. Guests are invited, but be sure to tell them to bring a dish for 12 people.

One more thing to remember--this is the meeting when the plants are supplied by YOU. The size of our plant drawing will be up to your own generous heart! Each member is asked to bring one Named plant or division of a Named plant--a plant that you would like to win yourself. This should provide us with a very fine plant table.

LAST MONTH'S MEETING

Our speaker, Mr. John Miller, gave us a beautiful slide program on his Phalaenopsis. He omitted the whites and showed only slides of colored Phal's and gave interesting comments on the varieties and crosses. We were all interested in hearing how he grows his Phalaenopsis.

Paul Shaub, Plant Forum Chairman, asked Doc Charles to discuss the Species and Botannicals, Rita Crothers and Murray Spencer the Cattleyas and Phalaenopsis. Thank you all for your comments on the many plants.

Mr. Paul Jones of Fred Stewart Inc. brought a beautiful collection of Miltonias and Cattleyas. The Westenberger Orchid Co. of San Fernando brought a lovely display of Cattleyas and Mr. Hugo Freed had some beautiful Phalaenopsis and Cattleyas.

The crying towel will be passed to Mr. and Mrs. Wendell Schooling and Mrs. Emma Campbell, who missed bonus plants in our special drawing last meeting. Mr. R. R. Kilgore was the lucky winner of the bottle of Orchid-Zyme donated by Rheinfrank & Hudson and Mrs. W. Wilson won the watering wand donated by the Southern California Greenhouse Mfg. Co. Thank you George Hudson and Charles Bowman for your donations to our drawing.

NOVICE CLASS

About 40 members of the Novice Class met at the home of Mr. and Mrs. Robert Green in Garden Grove for a pot luck dinner. An enjoyable time was had by all, thanks to the Greens. The September meeting will be one week later than usual because of the Labor Day weekend. The meeting will take place September 13 at the home of Jean and Jack Alff, 3955 Locust Avenue, Long Beach. This is just south of San Antonio Drive and West of Long Beach Boulevard a few blocks.

SOUTH COAST AND ORCHID DIGEST REGIONAL JUDGING

July 27, 1964. Judging Vice Chairman Dr. J. Lloyd Wallar

At Last! THE BREAKTHROUGH YOU HAVE BEEN WAITING FOR! Agricultural Enzymes

A Vital Supplement To Increase Plant Growth

Just spray it on and watch the
results you have always wanted

"WHAT ARE ENZYMES?"

Enzymes are nature's chemical tools. They act as organic catalysts that speed up chemical changes in cells without taking part in the change themselves.

These enzymes, amylase and protease, break down the complex food materials into simpler, more assimilable forms. As a result, this encourages growth of roots, foliage, and stimulates early blooms. Leaves assume a more erect stance and plants become more tolerant to light.

Orchid-zymes are compatible with other insecticides, fungicides, and fertilizers and may be applied in conjunction with these, even in a "shot gun" application. "Orchid-zymes" is **not** just another plant food, but truly a **new** and **proven** product that contributes to the growth of plants.

It is completely available to plants giving **quick** and **lasting** results.

An Important Bonus: "Orchid-zymes" will greatly reduce algae on pots, benches, compost and floors. It dissolves the unsightly white encrustations of fertilizers and chemicals that normally burn sensitive root tips.
