ASSISTANT EDITORS

## MEETING

June 28, 1965 - 8:00 p.m. to 10:00 p.m.

### MURRAY SPENCER - HAWAIIAN HOLIDAY

Murray, long a member of our Society, just returned from Hawaii where he saw things of scenic splendor as well as interesting plants and orchid establishments to whet the taste of any orchid hobbyist. He will show slides of his travels and some of the plants that struck his fancy.

### PLANT PROCUREMENT

The plants for the June meeting will be supplied by Murray Spencer. A large block of these plants will be shipped direct from Hawaii from the establishment of William Kirch Orchids Ltd. Murray states that plants from the Kirch company are available through him.

### NOTICE

The Board of Directors of South Coast Orchid Society has voted to raise the annual dues from \$4.00 to \$6.00 beginning January 1, 1966. A vote by the membership will be taken at the July meeting.

### LAST MEETING

Mr. John Hanes, past officer and director of many of the orchid societies in Southern California, was our guest speaker last month. His subject was Laelia Cattleyas and allied hybrids. His very informative comments were highlighted by a lovely slide presentation.

Our outstanding plant table of all award plants from Mr. Art Falk's collection was a huge success! In addition, Southern Calif. Greenhouse Mfgs. donated a Hi-Lo Thermometer and Rheinfrank & Hudson donated a goggle and mask set for spraying.

The plant forum chairman, Paul Jones, asked John Hanes and Frank Johnston to tell us about the many lovely plants brought in by our members. We really had some outstanding plants too!

## NOVICE CLASS

38 members and guests enjoyed the hospitality of the Paul Brecht Orchid Co. in Costa Mesa. Certificates were given out. Paul gave a talk and demonstration on the repotting of Phalaenopsis. Bill Fogatay gave a talk and demonstration on the potting of Stag Horn Fern. Bromeliads also were discussed. Paul Brecht then showed the different kinds of sprayers that are used in greenhouses and gauges, mixes, etc.

The next meeting will be a Pot Luck to be held at the home of Mr. and Mrs. Best, 137 Melville Drive, Fullerton, at 12:30 p.m., July 11th. Bring a dish large enough to serve 8 people and your own table service. Also, bring your folding chairs and plants for the drawing. Coffee and rolls will be provided by the Bests.

The Novice Class is not just for the beginner. It is also for the amateur grower. All members of South Coast Orchid Society and their guests are welcome. A discussion pertaining to orchids will follow. (See map for directions.)

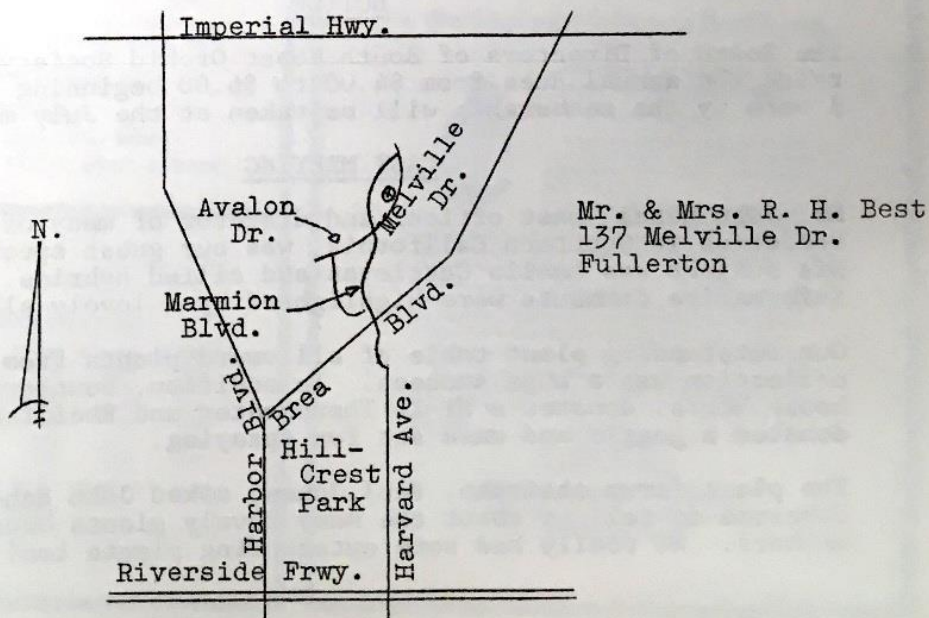

### SOUTH COAST AND ORCHID DIGEST REGIONAL JUDGING

May 24, 1965 - Judging Vice Chairman - Paul Brecht

Judges present: Howard Anderson, Paul Brecht, Robert Ernst,  
Arthur Falk, Roy M. Field, Dr. Irene Gleason,

*At last!* THE BREAKTHROUGH YOU  
HAVE BEEN WAITING FOR!  
**Agricultural Enzymes**

### A Vital Supplement To Increase Plant Growth

Just spray it on and watch the results you have always wanted

#### "WHAT ARE ENZYMES?"

Enzymes are nature's chemical tools. They act as organic catalysts that speed up chemical changes in cells without taking part in the change themselves.

These enzymes, amylase and protease, break down the complex food materials into simpler, more assimilable forms. As a result, this encourages growth of roots, foliage, and stimulates early blooms. Leaves assume a more erect stance and plants become more tolerant to light.

Orchid-zymes are compatible with other insecticides, fungicides, and fertilizers and may be applied in conjunction with these, even in a "shot gun" application. "Orchid-zymes" is **not** just another plant food, but truly a **new** and **proven** product that contributes to the growth of plants.

It is completely available to plants giving **quick** and **lasting** results.

**An Important Bonus:** "Orchid-zymes" will greatly reduce algae on pots, benches, compost and floors. It dissolves the unsightly white encrustations of fertilizers and chemicals that normally burn sensitive root tips.
