PROGRAM

July 26, 1965 - 8:00 p.m. to 10:00 p.m.

RUSS HERREMA - "THE WORLD OF INSECTS"

Mr. Herrema is sales representative for Chevron Chemical Company (formerly California Chemical Co.), manufacturers of Ortho chemical products. Mr. Herrema will show ua a color/sound film entitled "The World of Insects" and will follow with a question and answer period. The film will be very interesting and informative, so don't miss this opportunity to learn something new and have your questions ready about your own insect problems.

PLANT PROCUREMENT

Our plant table this month will be donated by our President, Lloyd DeGarmo. We will have a mixed collection of seedlings, divisions of botanicals and some fine awarded plants, including flowering sized divisions of Miltonia Ann Warne var. "Alii, AM from Royal Horticultural Society, AOS, ODC, and an award from the 4th World Orchid Conference; divisions of Cym. Lump of Gold, "Glitter", AM, AOS, ODC; a division of Guirrah Ween, var. "Enid", FCC, Orchid Society of New South Wales; and a division of Miniature Cym. Peter Pan "Greensleeves", HCC, AOS, ODC.

NOTICE

Everyone is invited to a special meeting of the Cymbidium Society to be held Friday, July 23rd, at 8:00 p.m. in the Auditorium of the Los Angeles County Museum in Exposition Park. The speaker will be Dr. George Morel, Director of Research of the Central Station of Plant Research, Versailles, France. He will speak on Meristem culture and show slides and have a demonstration of the technique. He is probably the world's foremost authority on Meristem culture and one of the people who have developed its application to orchids. We know you won't want to miss this interesting meeting.

LAST MEETING

Mr. Murray Spencer was our June speaker. His subject, Hawaiian Holiday, was enjoyable to all of us. His beautiful slides taken on his recent trip to the islands made us all wish we could go too. Murray furnished plants for our plant table from William Kirch Orchids Ltd. and announced that he will be the West Coast representative for William Kirch Orchids Ltd.

Some of the lucky winners at last meeting were: Membership Drawing, Julius Perez; Exhibitor's Drawing, John Hanes; Bonus Drawing, Rita Crothers.

NOVICE CLASS

Novice Class will be held August 1st at 10:00 a.m. at the home of Mr. & Mrs. Bob Green, 12452 Pine Street, Garden Grove. Everyone is welcome. Bring your own folding chair and a plant for the plant table. These are informal meetings where we have a speaker on some phase of orchid growing. Questions and answers will be discussed and refreshments served. This is a good way to find out how others raise their orchids.

The July Novice Class was held at the home of Mr. & Mrs. R. H. Best in Fullerton. There were 32 members and guests present for a pot luck, which was enjoyed by all. A very special thanks to Helen Czeikowitz, who donated most of the plants for the plant table.

NOTICE

Everyone is invited to a special meeting of the Cypripedium Society to be held Friday, July 27th, at 8:00 p.m. in the Auditorium of the Los Angeles County Museum in Exposition Park. The speaker will be Dr. George H. R. Sorensen, Director of Research of the Department of Plant Research, University of California. He will speak on the evolution and taxonomy of the genus Cypripedium. He is probably the world's foremost authority on the genus and one of the people who have developed the classification of orchids. He will also show slides of the plants. Admission is free. No need to make reservations.

BUSINESS IS GOOD —

— thanks to our many friends who return time after time to purchase new plants. Our High Quality and Courteous Service are responsible for the satisfaction of our customers.

Here are some new crosses that will add interest to your collection.

- A-1281 C. Esbetts Al x L. Purpurata 'Carnea'.
An unusual combination that we hope will improve the form of L. Purpurata and still retain the pink lip. 2" **\$5.00**
- AM-52 Lc. Louise Farrell
(Lc. Geo. MacDonnell Forma x Lc. Molly Tyler FCC x self). 1½" **\$2.00**
- AM 71 C. Esbetts x Bc. Deesse 'Rainer'.
We are hoping for a good white Brasso. 1½" **\$2.00**

A Vital Supplement To Increase Plant Growth

Just spray it on and watch the results you have always wanted

"WHAT ARE ENZYMES?"

Enzymes are nature's chemical tools. They act as organic catalysts that speed up chemical changes in cells without taking part in the change themselves.

These enzymes, amylase and protease, break down the complex food materials into simpler, more assimilable forms. As a result, this encourages growth of roots, foliage, and stimulates early blooms. Leaves assume a more erect stance and plants become more tolerant to light.

Orchid-zymes are compatible with other insecticides, fungicides, and fertilizers and may be applied in conjunction with these, even in a "shot gun" application. "Orchid-zymes" is not just another plant food, but truly a new and proven product that contributes to the growth of plants.

It is completely available to plants giving quick and lasting results.

An Important Bonus: "Orchid-zymes" will greatly reduce algae on pots, benches, compost and floors. It dissolves the unsightly white encrustations of fertilizers and chemicals that normally burn sensitive root tips.
