PROGRAM

October 25, 1965 - 8 p. m. to 10 p. m.

Mr. Bob Jones from Rod McLellan Co., San Francisco, will be our guest speaker this month. He will show slides of his recent trip to Europe and tell us about orchid ranges he visited there. You won't want to miss this opportunity to see some beautiful sights.

Mr. Jones will bring plants from Rod McLellan's for our plant opportunity table. We can expect some lovely plants.

LAST MEETING

Our program last month was on orchid judging. Mr. Paul Brecht was moderator, and we were given a complete run down on what happens to a plant when you enter it for judging. We were given a description and shown examples of what the judges look for, how the plants are given points for different qualities, the different awards, etc. Each person's part in this intricate program was discussed and we all realize what a tremendous job these judges do.

Plants last month were supplied by Yuill's Orchids, Los Angeles, and Mr. and Mrs. Leo Bance donated many fine plants from their collection.

Mrs. J. A. Alff was the lucky Bonus Plant winner. Mrs. Anthony won the Exhibitor's Award and Mr. Anthony Mikulec won the Membership Drawing. Mr. Lee Bentzen won a bag of plant food from Rheinfrank & Hudson.

NOTICE

The Board of Directors has voted to discontinue refreshments for the balance of the year.

NOVICE CLASS

The October meeting of the Novice Class was held at the home of Colonel & Mrs. Morley in Downey on October 5th, with 31 members present. The program was given by Col. and Mrs. Morley, and their subject was "Collecting Orchids in Panama." It was a most informative talk and made us all appreciate what collectors of orchids go through to get some of their prize plants from the jungles, and also the fun they had doing it.

The Novice Class has now opened its membership to anyone interested in orchids, whether a member of a society or not. Members and friends of all societies are welcome. There are no dues charged at the Novice Class.

The next meeting will be at 10 a. m. , November 7th, at the home of Mr. and Mrs. Vince Scoggins, 1840 Pine Street, Huntington Beach. Please bring your own folding chair and plants for the drawing. Let's have a good turn out. Come and bring a friend. Refreshments will be served.

HAVE YOU REGISTERED?

REGISTRATION FORM

5th World Orchid Conference

Long Beach, California

April 13 - 22, 1966

Please register the following persons to the Conference:

NAME

ADDRESS

At Last! THE BREAKTHROUGH YOU
HAVE BEEN WAITING FOR!
Agricultural Enzymes

A Vital Supplement To Increase Plant Growth

Just spray it on and watch the
results you have always wanted

"WHAT ARE ENZYMES?"

Enzymes are nature's chemical tools. They act as organic catalysts that speed up chemical changes in cells without taking part in the change themselves.

These enzymes, amylase and protease, break down the complex food materials into simpler, more assimilable forms. As a result, this encourages growth of roots, foliage, and stimulates early blooms. Leaves assume a more erect stance and plants become more tolerant to light.

Orchid-zymes are compatible with other insecticides, fungicides, and fertilizers and may be applied in conjunction with these, even in a "shot gun" application. "Orchid-zymes" is not just another plant food, but truly a new and proven product that contributes to the growth of plants.

It is completely available to plants giving quick and lasting results.

An Important Bonus: "Orchid-zymes" will greatly reduce algae on pots, benches, compost and floors. It dissolves the unsightly white encrustations of fertilizers and chemicals that normally burn sensitive root tips.
