

Ye Editor shall say, "Good work noble, brave, strong pioneers who navigated their way to the Bixby Park Club House. To those who got lost because of the wrong address, Ye Editor's humble apology." Try again to come to the new outstanding Bixby Park Club House, located at 130 Cherry Avenue, Long Beach, 90803, California. D.D.C. Judging starts at 7:00 PM. The South Coast program begins at 8:00 PM.

PROGRAM: March 27, 1967....8:00 PM....TIME LAPSE MOVIE ON ORCHIDS

Mr. Howard Anderson, an AOS and ODC judge, is a real friend of the SCOS and has been for the past 15 years. He is well versed in the Orchid World as well as the 'World of Motion Pictures.' Mr. Anderson will bring his interesting and valuable film on various phases of the growth and blooming of orchids. This is a film that you and your friends cannot afford to miss.

PLANT PROCUREMENT: Your officers are working hard to procure another outstanding table for your enjoyment.

LAST MONTH: Mr. Paul Gripp of the Santa Barbara Orchid Estate took his audience on a humorous tour of Cultural Hints. No one knew what Paul would produce from his 'Trunk of Wonders'. At one time a mask for protection while spraying for 'pests' (there seems to be many kinds - some have two legs and go by the scientific name of homo sapiens). Also produced were aids in holding cymb. spikes, repotting tools and many other 'special' items. Our thanks go to Paul for the wonderful plant table and for making our First meeting at the Bixby Park Clubhouse an outstanding one. And the REFRESHMENTS were so good....Our Thanks to Mrs. Stockham.

REMINDER: Dues must be paid by this March meeting to have your name in the 1967 roster and remain a member of good standing. Remember your dues are only \$6.00. Send yours today to Mrs. W. R. Powell, 4209 Blackthorne Ave., Long Beach, Calif. 90808 or phone if there are any questions...(213) HA 5-1687. Mrs. Powell will be at the meeting Monday night to help you.

OUR FRIENDS: It was wonderful to see Sara Bentzen at the Banquet and the February meeting. By the number of people who were surrounding Sara - all could see how much she was missed!

We are sorry to write about the heart attack suffered by Woodrow Wilson. "Woody" this year is the Societies' Second Vice President. He is also an active member in many of the other Orchid Societies plus being an outstanding judge. Cards can be sent to his home where Ann will see that they are delivered.

LIBRARIAN: From the "Office" of the Librarian to all you "Bookworms". Bring your bulletins for binding to either the March or April meeting. Prices will be approximately \$1.00 higher this year. So in these days of rising costs, don't wait, he who hesitates will be paying more. Money in advance PLEASE.

MEMBERS NEED MEMBERS: Can you remember when you first started growing Orchids? How did you feel as a new member? When you see a guest or new member to SCOC, think how fortunate you are to be the one to usher them into the 'Wonderful World of Orchids'.

X Don't try to impress upon the newcomer how good you are - prove to them how good they are!

Make all feel at home. This sense of belonging that starts is carried on right into club work later on. Indoctrinate these new people, not only in the skills of Orchid Growing but in the true spirit of the activity.

Learn to call each member by name. With a large Society this sometimes becomes almost impossible, but by setting a goal for yourself to learn a few new names each meeting, you will be surprised how rapidly you can.

ORCHIDACEAE: This family comprises the largest of all plant families; it contains according to various estimates, 500 to 600 genera and 20,000 to 35,000 species. Orchids are herbaceous (nonwoody and grasslike) perennials that occur as shrubs, vines and even grasses. They may bear a single flower or many flowers. They are found from the Arctic to the borders of the Antarctic.Joseph Arditti.....
