PROGRAM FOR OCTOBER 22, 1973 MEETING WILL START AT 8 PM.

We are privileged to have Emerson "DOC" Charles, one of our own members, as our speaker. Doc has collected plants in Mexico and points south and has his own orchid range in Costa Mesa. He is well qualified to tell us about these exotic and varying genera. This program is especially recommended for those who have not yet become familiar with botanicals, as well as those who have loved them for a long time. This introduction of our speaker was taken from the South Coast Bulletin of Sept. 1964, and again it proves what a lasting engrossing involvement the growing and love of orchids can be. He is also to be found in the Judging Room, and both he and his wife Ruby confess that there are still places to go on collecting trips that they are looking forward to visiting.

The Plant table will be in the main part, provided by the varied and interesting collection of the Charles'. I'm looking forward to the variety that only they can supply. Hopefully, there will be members of our Society that will donate extra divisions also.

October Meeting.

Many thanks to Ann & Woody Wilson for a real enjoyable morning. We learned a lot about the qualities that make a award quality plant, and the group got answers to all their questions, which really shows that Woody is well qualified to be head of South Coast Judging. Again, our appreciation to you both.

#### September Meeting

I hope that you were able to attend and hear Mr. John Miller tell about the beautiful and new "Phalie" Crosses. The slides showed what exotic colors and shapes that we can now add to our collections. I especially enjoyed the scenic pictures taken in the Phillipines. Must be a thrill to see all those orchids in the forests.

The Plant Table was provided by Mr. Miller and featured many of his interesting phalie seedlings. And, also, please take a moment once in awhile to thank these members for their generous donations to the plant table. Many of our members do this month after month and you are the ones that really benefit so take time to let them know this.
