## *S.C.O.S. Presents Commercial Night - 1980*

Our November meeting is Commercial Night. This is your opportunity to see and hear from all Commercial Growers and Suppliers in Southern California and find out what new things they are up to without driving to each place. Each grower will bring a representative selection of his plants and will talk about services offered, supplies carried, etc.

If by any chance you are a Commercial or Private Grower who would like to display and have not been contacted, please call Jane Brecht so that table space can be reserved for you. Her number is 714-559-0343 for calls during the evening.

### PLANT TABLE

Along with donations from the Commercial Growers, we will be depending upon donations from members of the Society for the Plant Table. Let's all try to bring something nice to add to the success of the Table.

### RIBBON JUDGING

There will be no Ribbon Judging at the November meeting, due to lack of table space.

### DRAWING

Bob and Emma Green were the lucky winners of \$25.00 in October. The amount will be \$25.00 this month.

## Novice News

A receptive group of attendees at the Novice Meeting on November 2nd heard Phyllis Cross describe her methods of growing orchids without benefit of greenhouse. She designed and built her own "grow light" system using regular cool white fluorescent light tubes which works successfully without resorting to expensive special lighting. It was most helpful to all.

The next meeting of the Novice group will be held Sunday, December 7th at W. C. Orchids, 1627 W. Swanee Lane, West Covina at 10:00 a.m.

This will be the semi-annual Certificate Meeting. Everyone is invited. Bring a plant (preferably a healthy named orchid) and a chair. For further information, contact Don Pollard at (213) 421-4366.

## Last Month

Dr. Norito Hasegawa's review of *Brachypetalum Paphiopedilums* and the variations within the species was very well received. He pointed out the evolution of shapes of the various flowers and showed how it is possible to note native habitat through observation of shape. He touched on aspects we have not heard of in other talks and it all leads to better insight into how to grow the plants. Thank you very much, Norito.

Donations: The following generous people added to the Plant Table which was furnished by Dr. Hasegawa: California Greenhouse Controls, Charles Bowman - Hi-Lo Thermometer; Don and Mary Hohanshelt - 2 plants; Paul Brecht Orchids - two \$10.00 gift certificates and P. G. Barnett - 2 Cattleyas. Thank you very much!

GUESTS: We welcomed the following guests in October and hope they will come again: Gene DuBois, Dick Lucas, Isabelle Kilgore, Bob Beck, Pat and John Nunnally and Roy Pepper
