

South Coast Orchid Society

presents:

MAY 23, 1988
8:00 P.M.

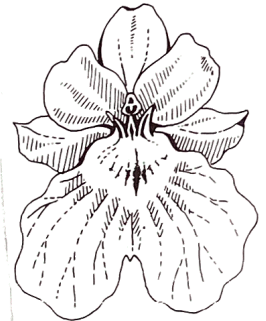

At: Whaley Park
5620 Atherton
Long Beach

Linda Iger
President

WE WILL HAVE TWO SPEAKERS THIS MONTH
BOTH ARE MEMBERS OF THE SOCIETY.

REPOTTING OF CATTLEYA GENRA BY ART MC CANN,
HIS VIEWPOINT ON SOME OF THE FORGOTTEN BASIC
AND ALSO NEW IDEAS THAT MIGHT BE HELPFUL
FOR BETTER PLANT GROWING.

MOUNTING OF CATTLEYA AND OTHER GENERA BY
DON FRASER, HE WILL SHOW YOU HOW EASY IT
ALL GOES TOGETHER.

IF YOU HAVE HAD ANY PROBLEMS IN REPOTTING
OR MOUNTING, BRING THEM UP AND OUR SPEAKERS
WILL TRY AND SOLVE THEM FOR YOU.

It would be helpful, if you could let the bulletin editor know what it is that you would specifically like to see and hear at future meetings. It is your orchid society and I will certainly pass any word along to the members of the board so that they can arrange a program for your suggestions.

ILLNESS

Jane Brecht is home recovering from her operation and the last word I had is it is a slow recovery time but she is recovering. It will be a little while yet but you will soon see her again.

It has been reported that Jerry Rehfield has been in a serious accident. We hope for his speedy recovery and his return to our society. It was not too long ago that we reported he had sustained a heart attack.

It is a little late but perhaps Don Bradish is home recovering from open heart surgery.

Cards can be sent to the above at the following addresses:

Mrs. Jane Brecht
4201 Williwaw Drive
Irvine, Ca. 92714

Mr. Jerry Rehfield
7305 Shepard Mesa Road
Carpinteria, Ca. 93013

Mr. Don Bradish
7142 E. Wardlow Road
Long Beach, Ca. 90808

I would be appreciated if you could let the bulletin editor know of any illnesses of our members. We are very interested and concerned about our members. Thanks.

The society has lost another friend.

EUGENE CASEY

He passed away the middle of April, 1988. He was an Emeritus Judge of the American Orchid Society. He was a very long time member of our society, attended our meetings, our banquets as well as coming to the A.O.S. judging sessions. He leaves a brother and a sister-in-law who reside back East. He will be missed by all in the society.

POTTING

It has been often said that more growers come to grief with improper potting than with any other aspect of growing, for if a cattleya is improperly potted, the chances of its ever being able to grow well are almost nil, regardless of the care it is given. Because of this need for drying, clay rather than plastic pots are favored by most growers.

Although there is no definite rule regarding the time of year when cattleyas can be potted, the winter months are generally considered the least desirable. Rather, the warmer months, when the days are longer, sunshine is increased, and there are more favorable growing conditions to help the plant become reestablished, are to be preferred.

Although some roots appear on the top of the potting material, the majority, and by far the most important for the development of the plant, grow below the surface of the potting material and are attached to the sides and bottom of the pot. However, if the cattleya seems determined to grow horizontally instead of up straight, this situation can be corrected by gently tying the growth to a stake firmly set into the potting material. Then gradually it can be straightened up as it grows, but care must be taken to prevent breaking off the new growth.

NAME BADGE

Remember if you are a member and you are wearing your name badge you are entitled to an extra ticket for the membership plant drawing. In the event you do not have a name badge you can order one from Mr. Art McCann.

Refreshments

It would again be greatly appreciated if the following members would bring some cookies or snacks for our refreshments time. The Society furnishes the coffee and the punch.
