PHALAENOPSIS IN THE 21ST CENTURY

John Miller has specialized in growing Phalaenopsis since the years he lived in the Philippines. He's going to talk this month on new aspects in Phalaenopsis culture, insecticides and fungicides. He will also discuss pigments -- how they work and what you can look for in hybridizing. Included will be "forthcoming attractions" - future trends in breeding.

Many of us are growing Phalaenopsis inside the home. Here's our chance to learn more about growing these beautiful plants with their long-lasting flower spikes.

PLANT TABLE

John Miller will bring the Plant Table this month. Be ready to buy lots of tickets. Remember, if you don't have a greenhouse you can grow Phalaenopsis inside your home and enjoy their lovely blooms for a long time.
