SUCCESSFULLY GROWING ORCHIDS WITHOUT A GREENHOUSE

BOTH INSIDE AND OUTSIDE THE HOUSE

GEORGE COOPER is growing orchids inside his home that normally must have a greenhouse environment - Phalaenopsis, Miniature Cattleyas, etc. He's going to tell us how he is doing it, what his set-up is, etc.

George and his wife, Maureen, are not new to gardening with roses, camellias, azaleas, etc. but they are fairly new to orchids. They're both good students and have absorbed information from various orchid programs, publications, etc. (Maureen has been seen taking notes in the dark during a slide program.) A quick glance at the list of ribbon awards these past few months tells us how successful they really are.

Bring your friends to hear this innovative program.

Plants for the **OPPORTUNITY TABLE** will be from **ORCHIDS, ETC. (LUCILLE RASKOFF)** of Hollywood. Lucille promises a well-rounded table including selected clones of Laelia and Cattleya species from Brazil, Paphiopedilums, Phalaenopsis, etc.

Donations from the membership for either the **SILENT AUCTION** or the **OPPORTUNITY TABLE** will earn the donor extra tickets for the plant drawing.

LAST MONTH

A hearty welcome to new members Diane and Jim La Turner who now live in Los Alamitos (see the roster addendum).

Guests were: Richard Morgan of Dana Point and Mr. & Mrs. Les Snyder of Westminster. Hope you'll come again.

Don't believe I know everyone's name who donated to the Silent Auction and/or Opportunity Table last month. We do thank Neal Crosswhite and Phil Plocher for their contributions.

Art McCann, your program was just great. Did you notice, some very experienced growers were taking notes and asking questions?

It's nice to see so many names of amateurs and private growers receiving A.O.S. awards in April. Congratulations to our president, Dr. Phil Plocher on his first A.O.S. award (pending hybrid registration).

Esther Bowman is recuperating and receiving therapy at a rehabilitation facility.
