Guest Speaker for August

We are very pleased to have Dr. Robert Hull, as our August speaker. Dr. Bob turned a hobby into the very respected "Sunswept Orchids" of Studio City. He is a well traveled and very knowledgeable collector of exotic species from Central and South America. Dr. Hull will speak about some new *Cattleya* and *Laelia* finds and show us some very interesting slides. We will hear about the exciting hybrids that may be possible with these new species. A fascinating talk and a terrific plant table from "Sunswept Orchids" adds up to a great evening.

Reflections On July's Program

Last month at our July meeting, a lot of South Coast Orchid growers began to rethink growing *Disa* Orchids. Dr. Koopowitz enthralled the audience with his excellent slides and living examples of the splendor of this South African beauty. Dr. Harold shared with us some of the secrets that he has learned over the years in growing the *Disa* here in Southern California.

Thank you, Dr. Koopowitz, for a great presentation. Many of us left that evening thinking that maybe, with some good water, the right place and a lot of patience (especially after a "killing frost") we too could grow the *Disa*.
