Guest Speaker for September: Trudi Marsh

On many occasions, we preserve our pleasant memories with photographs. We also know that there isn't any better way to describe the beauty of an orchid, after it has faded away, than with a good photo. But there is the rub - how come our pictures are not like those incredible pictures in magazines like "THE ORCHID DIGEST"? How do the "Real Photographers" do it???

Don't wonder any longer, tonight we will have the chance to hear how it is done from someone who really knows. We are very pleased to have THE ORCHID DIGEST professional photographer Trudi Marsh unveil some of the photography mysteries beyond f-stops and ASA numbers so that we can capture forever our prized blooms. Red Marsh will also be here and will supply some of his famous orchids for our plant table. Bring your questions and prepare for an interesting and rewarding evening.

Reflections On the August Meeting:

August attendees were treated to many beautiful slides, compliments of Dr. Robert Hull. We were able to enjoy the splendors of many Cattleya and Laeila species finds from South of the Border. Thanks Bob.

The August meeting was our last at Wardlow Park. It was a nice place, but we have very high hopes that moving back to Whaley Park and Monday nights will increase attendance and participation.
