

Carl and Imogene Keyes Awards

Revised March 9, 2025.

For the awards from 1970-1973, we include the place of residence for the Keyes as listed in the original publication in *Awards Quarterly*, because of some discrepancies in other sources about when they moved from Burbank to Santa Barbara. The citations show that they are first noted as relocated to Santa Barbara sometime between November, 1971 and February, 1973. In fact, all their CSA awards are in the Los Angeles area until 1973.

January 14, 1963:

[CSA Award Number 19670058. Same flower as the preceding HCC/ODC award. Color photo in OrchidWiz, image #80209, contributed by CSA, but in fact it is the same image from the HCC/ODC award, see above.]

8 Cymbidium Sylvia Miller 'Citronella' HCC/AOS, Regional Monthly Judging, Hawthorne, CA. [AOS award no. 19680078, award slide in Huntington collection.]

The version with the apostrophe is more likely correct. Color photo in OrchidWiz, image #80200, contributed by CSA, and this image is also found in the Keyes archive.]

March 19, 1969:

14 Paphiopedilum amabile 'Charles' CBM/AOS CCM/AOS, Regional Monthly Judging, Los Angeles, CA. [AOS award no. 19690164, listing only the CBM/AOS. The CCM/AOS was included in the same award number when the award was published in the *AOS Bulletin* 38(11:1007 (November, 1969), but was omitted when it was published in *Awards Quarterly* 1(1):21 (January, 1970). However, it was correctly included in the AOS awards list 1932-1989. Award slide MAR69H4_6 is in the Keyes archive, specifying CBM/AOS, CCM/AOS. Now correctly identified as Paph. bullenianum. OrchidPro lacks a photo, but the award photo, identified as coming from the Pacific South judging center, was published much later in the AOS Bulletin in an article about a contest for AOS photographs. Proof that the Pacific South region had a great slide collection as late as 1988! Another slide, with a similar label but not formatted exactly as an award slide, specifies CBM/CCM/AOS, slide JAN71H8_? in the Keyes archive.]

May 27, 1969:

Published in *Awards Quarterly* 2(3):62 (1971) as 19710227, changed because of duplicate award numbers. OrchidWiz gives award no. as 19710257, in error. OrchidPro lists this award as no. 19719227, and, for the original award number 19710227, an award for a Cymbidium from the Rowland Collection, January 11, 1971 at the same venue, published in *Awards Quarterly* 2(4):94 (1971). Award slide FEB71H2_6 is in the Keyes archive. Residence: Burbank, CA.]

Now that we have located the award slide in the Pacific South collection at the Huntington Botanical Center, we know that the photos in OrchidWiz, while obviously old, were not taken at the judging session.]

April 28, 1975:

58 Paphiopedilum lowii 'XLNT' AM/AOS, Regional Supplemental Monthly Judging, Long Beach, CA. [AOS award no. 19750458, the award slide is in the Huntington collection. OrchidWiz has an entry for this award under no. 19750953, as well another award with the same name but a description of an entirely different plant as award no. 19760458. The reason for this discrepancy between OrchidPro and OrchidWiz has to do with duplicate award numbers published in *Awards Quarterly* and subsequent efforts to untangle the resulting confusion in successive AOS award databases. Published in *Awards Quarterly* 7(4):94 (1976) without a photo. Note that XLNT is a brand of plastic-wrapped frozen tamal. Award slide MAY75H1_22 is in the Keyes archive.]

59 Phalaenopsis Dusky Rouge 'Goodie' HCC/AOS, Regional Supplemental Monthly Judging, Long Beach, CA. [AOS award no. 19750459. OrchidWiz has an entry for this award under no. 19750954, as well another award with the same name but a description of an entirely different plant as award no. 19760459, another example of confusion caused by duplicate award numbers that were published in *Awards Quarterly*. The photo attached to this award in OrchidPro actually belongs with award number 19750926, Phalaenopsis Natasha 'Eye'Dee', not connected in any way with the Keyes. Award slide MAY75H6_2 is in the Keyes archive.]

60 Odontioda (now Oncidium) Crislette 'White Satin' HCC/AOS, Regional Supplemental Monthly Judging, Long Beach, CA. [AOS award no. 19750462, the award slide is in the Huntington collection. OrchidWiz has an entry for this award under no. 19750957, as well another award with the same name but a description of an entirely different plant as award no. 19760462. This award was also caught up in an episode of duplicate award numbers. Award slide MAY75H6_8 is in the Keyes archive.]

June 9, 1975:

December 13, 1976:

82 Paphiopedilum Carimo Reward 'King's Ransom' HCC/AOS, Regional Monthly Judging, Los Angeles, CA. [AOS award no. 19760994. There are likely award slides (JAN77H10_4 and JAN77H10_5) of an otherwise unknown hybrid Paphiopedilum "Temple Hill" that are probably this plant in the Keyes archive, consistent with the parentage Chans Temple x Winston Churchill, and very similar to another cultivar of Carimo Reward later awarded by CSA, for which an award photo exists. The hybrid had not yet been registered when the award was made in December, 1976, and it may be that the Keyes had not yet settled on the final name. With the possibility that the original award slide might have been labeled as Temple Hill, the Pacific South award slide collection at the Huntington Botanical Center needs to be searched again.]

83 Paphiopedilum Keyeshill 'Carl' HCC/AOS, Regional Monthly Judging, Los Angeles, CA. [AOS award no. 19760997. A photo of the awarded plant is found in the Keyes archive, JAN77H10_16, although it is not the official award photo, since it is from a roll of film with an assortment of other (non-awarded) plants from the Keyes' collection.]

90 Paphiopedilum Great Pacific 'Carimo' HCC/AOS, Regional Monthly Judging, Los Angeles, CA. [AOS award no. 19780248, but OrchidPro places the award in Atlanta, GA!
